

BUSINESS TECHNICAL SUPPORT

Windows, Mac, Mobile

Use them all? We've got you covered. We use them all too!

Software Upgrades

Let us take care of your software ...so you can focus on your business!

Cloud Phone Systems

Take your business communications to a new level with our cloud-based PBX.

Networking

VPNs, Routers, WiFi – we have you covered with upgrades – or a completely new network.

Business Email

Use our reliable hosted email, or we can maintain your current accounts.

Domain Hosting & Renewal

Keep your company's domains secure! We'll make sure they get renewed on time.

We're your IT department for reliable long term support.

100 Domino Drive, Suite 2
Concord, Massachusetts 01742
978-776-9586
www.InformationResults.com

We support computers, laptops, desk phones, email, internet, networking and domain hosting. Our technicians are available to assist customers remotely, or on-site within a 15 mile radius of our main offices.

We typically maintain an inventory of your office's network and computers and keep your software and anti-virus up to date.

Our approach is very proactive. We would much rather do preventative maintenance -- than to have your office's internet down, or a major software glitch disrupt your workplace for hours.
